SWETA SAH

Kolkata, India | (+91) 6291315041 | sahsweta99@gmail.com | linkedin.com/in/sweta-sah-/ | github.com/Sweta-Sah

PROFESSIONAL SUMMARY

Data operations professional with 2+ years of experience in data extraction, validation, and quality assurance using AI-powered IDP platforms. Transitioning into data analytics with hands-on project experience in SQL, Excel, and Power BI — covering consumer insights, transaction analysis, and sales performance reporting.

SKILLS

Tools: SQL (MySQL), Python (Pandas, NumPy), Advanced Excel (Pivot Tables, VLOOKUP, Conditional Formatting), Power BI
Analytics: Data Visualization, Reporting, KPI Tracking, Dashboard Design
Data Operations: Data Extraction, Data Cleaning & Validation, Data Quality Assurance, Anomaly Detection, Intelligent Document Processing (IDP)

WORK EXPERIENCE

Data Processing Executive | Infrrd Pvt. Ltd, Bengaluru *May 2024 – Present*

- Extracted, classified, and validated data from complex structured and unstructured documents across multiple industries — including auto insurance, agricultural commodity trading, CPG, and air & travel logistics — using an AI-powered IDP platform.
- Monitored extraction outputs to identify data anomalies, inconsistencies, and classification errors, flagging issues that affected downstream data accuracy and client reporting.
- Delivered consistently high-quality labelled datasets to improve ML model performance, maintaining strict accuracy standards across high-volume daily workflows.
- Collaborated with cross-functional teams to uphold data integrity and improve end-to-end document automation efficiency.

Annotation Executive | AIMonk Labs Pvt. Ltd, Bengaluru *April 2023 – March 2024*

- Executed large-scale data annotation across image, text, and audio datasets for computer vision and generative AI projects — including text-to-audio, voice cloning, and video synthesis.
- Partnered with ML Engineers and Product Teams to identify annotation inefficiencies and implement improvements, contributing to faster project delivery and model iteration cycles.
- Managed multiple annotation projects simultaneously, maintaining high accuracy and throughput under strict deadlines.

ANALYTICAL PROJECTS

Credit Card Transaction Analysis | MySQL, Excel *May 2024*

- Analysed a large credit card transaction dataset to identify spending patterns across geography, demographics, and card types.
- Identified the top 5 cities contributing 58.6% of total spending, highlighting key markets for targeted campaigns.
- Translated analytical findings into clear visual summaries and business insights using Excel.

Food & Beverage Consumer Insights | MySQL, Power BI *Aug 2023*

- Analysed survey data from 10,000 respondents across 10 cities to understand consumer behaviour, brand perception, and product preferences.
- Built interactive Power BI dashboards to visualise insights and communicate findings effectively.
- Identified Bangalore, Hyderabad, and Mumbai as high-potential markets based on consumer response patterns.

Regional Sales Performance Dashboard | Excel *Mar 2023*

- Designed an interactive Excel dashboard to monitor regional sales performance across Europe, North America, and the Pacific.
- Identified North America as the leading region, contributing 41.5% of total purchases.
- Performed segmentation analysis to identify the highest-value customer demographic (age 31–54).

EDUCATION

Bachelor of Textile Science | Jadavpur University, Kolkata | CGPA: 9.43 *2019 – 2022*

CERTIFICATIONS & ACHIEVEMENTS

- SQL Beginner to Advanced for Data Professionals — CodeBasics (Scored 70%+) | April 2024
- Winner — CodeBasics Resume Project Challenge | August 2023
